CAREER OBJECTIVE

I'm a hard-working aspiring Software Engineer, with a passion for programming and anything to do with computers.

EDUCATION

Global Indian International School, Singapore — *IB Diploma*

JULY 2018 - MAY 2020

International Baccalaureate Diploma Programme.

Score: 37/45

Nanyang Technological University, Singapore — *B. Eng.*

AUGUST 2020 - MAY 2024

Bachelors of Engineering in Computer Engineering.

PROJECTS

SGSafety — *Android Application*

As part of my course, I worked on an android application with my teammates. The application itself is very simple as the purpose of it was to understand the software development process. Through this project I gained experience using Android Studio as well as the software development process from requirement specification to programming and documentation

PROGRAMMING LANGUAGES AND TOOLS

For the below languages and tools, I have experience using them, however I do not have any concrete or elaborate projects with them

Python — *numpy, pandas, matplotlib, seaborn, pygame, PIL*

JavaScript — *node.js, three.js, p5.js*

Java — *Android Studio*

Basic Web Dev — *HTML5, CSS3*
